BOSTON, April 20.

By the laſt Ships from London, we are agreeably informed of the Determination of a Cauſe before the Houſe of Lords, between the City of London and the Diſſenters, reſpecting the Sheriſalty. The Caſe was as follows, Allen Evans, *Eſq; a Diſſenting Gentleman was elected by the City of London one of the Sheriffs; he refuſed to ſerve in that Office, and plead that the City had not a Right to chooſe him, nor he a Right to officiate therein, as by Act of Parliament he was diſqualified; for that he had not within the Space of Twelve Months before his Election, partook of the Sacrament of the Lord's Supper, according to the Rites of the Church of England, which the Act of Parliament required all Perſons choſe into and ſerving in that Office ſhould do: That he could not conſciencioufly comply with that Requiſition, and therefore was not obliged to ſerve in that Office, nor was he ſubjected to any Fine for not ſerving—Upon this, an Action was brought by the Chamberlain of the City againſt him for the Recovery of Six Hundred Pounds Sterling, ſuggeſted to be forfeited by his Refuſal; which, after various Trials, was at length unanimouſly determined in Favour of Mr.* Evans, *upon a Writ of Error in the Houſe of Lords. This having been a Caſe of great Expectation, and long conteſted, we have, to gratify our Readers, obtained an Extract of a Letter upon this Subject, wrote by a Gentleman of Diſtinction in London, to his Correſpondent in this Town, which is as follows.*

London, February 10, 1767.

SIR,

I Should have acknowledged the Receipt of your Favours October 14 paſt ſooner, but that my Time and Mind have been fully employed for Months paſt in a public Affair, which moſt nearly concern'd the civil and religious Intereſt of every Diſſenter in England. By the force of Truth, which is always an overmatch for Cunning, and by the Grace of God ſupporting at this Time by his Providence, that glorious Cauſe, we found the whole Houſe of Lords, as it were born in a Day to countenance, and alſo to give Judgment as one Man, in Favour of the Diſſenters, againſt that great Power, the City of London, and all that Art we have conteſted with in the Sheriff's Cauſe for more than fourteen Years, and even in this laſt ſignal Defeat, to uſe their own Expreſſion, they died very hard. When the Council on both Sides had done and the Judges who were ſummoned to attend had given their Opinions Seriatim on a Point of Law which was ſtarted, My Lord Mansfield in a moſt nervous & eloquent Speech, amongſt other Things declared, That the Mode of religious Worſhip amongſt Proteſtant Diſſenters, was eſtabliſhed by Law. And further, That according to his Apprehenſion, it would be Sin in a conſciencious Diſſenter to conform to the Church of England. ‖ He concluded, by moving the Houſe, that the Judgment be affirmed, which the Houſe agreed to immediately.

SUPPLEMENT to the *Boston-Gazette*, &c. of

MONDAY, APRIL 20, 1767.

LONDON, *Feb.* 28.

EVERY one of the American Provinces have complied, without demur, with the orders of government, for quartering troops, and all other requisitions, except Boston and New York; who, however, it is thought, will know their interest too well to oppose so trifling a circumstance, as finding the troops with salt and small beer.

The forces so much talked of to go to America, are only to relieve the several regiments that have been there for some years.

One reason for the many messengers going to and coming from the Earl of Chatham is, the Privy Seal business, as no part of that can be concluded without applying to his Lordship, who is Keeper of that Seal.

Yesterday some dispatches said to be of a very agreable nature, were received at the Secretary's Office from Boston in New-England.

Messieurs EDES and GILL,

Please to insert the following Answer to the humble *Quere in the last Monday's Evening Post.*

EVERY man who has been the least acquainted with public matters in this province for some years past, cannot but be sensible, the Whigs, or in other words, the friends and supporters of civil liberty and the rights of Englishmen, have constantly been branded with the *decent* appellations of fire-brands, incendiaries, disturbers of public tranquility, contemners of all government, &c. by every high-flying disappointed Tory thro'out the province.—The humble Querist will not therefore be angry, or think himself ill-used, if it should be taken for granted he means to apply the raging flame he speaks of, to the Whigs—Now let us suppose (which is very natural) that the Whigs imagine they have just reason to resent the conduct of the Tories, and warn the people of the dangerous tendency of their measures. Can the humble Querist be so cruel as to desire they would counteract themselves in what they think is right? By no means. That would be quite unnatural, and what he cannot reasonably expect.—If then it is allowed that "high proved spirits thrown on with the hand of *indiscretion*," is not so "likely to extinguish a raging flame," as "*simple* fair water administred prudently," and no man can be reasonably desired to quench a flame he imagines ought to be kept alive, the answer to his Query is very plain and easy, and can be no other than this, That it is the duty of every Tory to administer *fair* water to extinguish the raging flame of the Whigs.—I purposely omit the epithet *simple*, imagining it quite superfluous; for it is no more doubted, that if they undertake to administer any water, it will be *simple* water, than it is, that in the present posture of affairs they are very desirous the flame should be extinguished.—But that the humble Querist may in his turn have an opportunity to laugh at me, (for I choose always to give fair play) I would humbly propose the following Quere for his solution—How can high proved spirits thrown on by the hand of *discretion extinguish* a raging flame.

DIC PUZZLE.

The following Advices are taken from the English Prints bro't by Capt. Davis, who arrived at New-York Yesterday se'nnight, in 6 Weeks from England, tho' not so late by 8 or 10 Days as those bro't by the Vessels arrived last Week, which are inserted in the first Page of the Paper.

LONDON, Jan. 14.

WE hear that the right hon. the Earl of Chatham will use his utmost endeavours to obtain pardon for all the rioters who are now under sentence of death in the different goals in this kingdom, upon condition of their being transported to Florida; but this act of clemency is not to extend to any that were guilty of thefts and robberies.

Jan. 16. It is said a scheme is under consideration for introducing the currency of English Bank-notes not to exceed five pounds each, in the American colonies.

Jan. 19. An evening paper of Saturday says, that upwards of 900 Spitalfield weavers, for want of Employment here, have, within the course of this week engaged themselves for Boston, New-York, and Philadelphia.

LONDON,

Jan. 24. After having so many years shewn a total dislike to the female sex, all Europe are now attentive to the change in his Majesty of Prussia, which is closeted and sups with two of the finest ladies in Germany.

Extract of a Letter from Paris, dated Jan 16.

-------- "Perhaps the misfortunes of the Calas's and Sirvens may prove the most happy events to the Protestants of this kingdom; the unparallelled calamities of those families have at length opened the eyes of the ministers, and even attracted the attention of the throne. It is publickly reported, and generally believed here, that it has been resolved in the King's Council, to allow of a general toleration in religious matters thro'out the kingdom, and the resolution has been notified to the governors and intendants of all the provinces. By this regulation, the Protestants in France will be upon the same footing as the Roman Catholics in England, and allowed ministers and places of public devotion. In consequence of this agreable turn in favour of the reformed religion, many Protestant young gentlemen have already set out for the Universities of Leyden and Haerlam, in order to take their degrees in divinity, and afterwards officiate as Priests, who are to be supported by their respective Disciples."

Jan. 31. A new plan for taxing America is said to be adopted by the ministry.

It is reported that eight regiments are nominated to go from Ireland to North America, in consequence of some letters lately received from thence.

It is said the fleet now fitting out will go to America, in order to strengthen the troops sent thither.

Feb. 2. We are told, that several more sloops of war are ordered to be fitted out at Chatham and Sheerness, supposed for American service.

Orders are given for some thousand stands of small arms to be got ready at the Tower, to be shipped for North-America.

Feb. 6. Last week a great person, with four other eminent members of the church, were nominated as trustees, for the money collected by the Indian preacher, among the Dissenters through this kingdom, for propagating the gospel in America, when they condescended to accept of the same.

Feb. 7. The squadron now fitting out is to consist of 20 ships of the line, 4 frigates, and 2 bomb ketches, besides tenders and hospital ships. They are to be furnished with all the implements of war necessary for sieges; and large quantities of chain shot are already shipped on board.

Feb. 9. New instructions are said now to be preparing to be sent to our Governors in the West-Indies and North-America.

It is strongly reported that the naval expedition now fitting out is intended for the Mediterranean.

Feb. 12. The present military preparations attract the attention of many people; and the knowing ones in St. James's-street, who pretend to be in the secret, have laid betts of three hundred guineas to one, that they are designed for North America, and not for Portugal.

Feb. 19. An evening paper of Saturday last says, that orders are dispatched to Gibralter, for the governor to fix a boom chain across that harbour; as information has been received that the Spaniards intended to attack that place.—Whether there is any truth in this alarming report, a short time will probably discover.

It is now given out, but for what purpose we know not, that the articles in the papers relative to the fleets fitting out to visit America and Portugal, are entirely without foundation; as no other than the usual necessary repairs, &c. are making in the dock yards; and the ships fitting out are only intended to be in readiness to relieve those on different stations.

The report of the Custom House at New-York having been pulled down, we have the pleasure to hear, is without foundation.

It is thought that an act will be passed this session to allow paper currency to the English colonies in North America and the West-Indies.

Feb. 21. It is now said that General Monckton goes to North-America, as Governor of the province of New-York and Quebec, and commander in chief of the troops in North-America.

The contradiction of the ships now fitting out being destined on some expedition is, we are told, a *mere* contradiction; for that a fleet is to be commanded by three Admirals, (Pococke, Geary and Palliser, are said to be the gentlemen) and will attend Mr. Littleton to the Tagus, whatever may be its after Destination.

It is said that the troops in North-America will be drawn from the different parts of the country, and quartered in the neighbourhood of Boston and New-York.

ANNAPOLIS, April 2.

Our Accounts of the Damages done by the heavy Freshes the 6th and 7th of last Month, in the Western Parts, are indeed terrible. In one Part of *Patowmack*, the River arose to Forty Feet perpendicular higher than it is in the Summer, and a vast deal higher than has been before unknown: By the Black-Water of *Patowmack*, the Mouth of *Manockacy* rose about 20 Feet, and about 15 Feet in other Parts. Many Houses, Cattle, Horses, Hogs, &c. were by the Flood carried away and lost. In the *Sugar-Lands* it made prodigious Havock; about 400 Hogsheads of Tobacco was carried away and lost: One Mr. *Douglass* had his Stock of 21 Head of Cattle, his working Horses, and 37 Hogs, entirely carried away. The Damages sustain'd by this Inundation are beyond Description; and such a Number of industrious honest People suffered thereby, that it is thought if their Creditors and Landlords have not Christian Patience with them, that they will drive 3 or 4 Hundred of those useful People out of the Province. An Instance of the Generosity of Two young *Dutchmen*, well deserves Recording: They had Leas'd out Two Tracts for about 15 or 20l. a Year, to Two Tenants, and going to them soon after the Disaster, the Tenants told them, It was impossible for them to Pay their Rents, and were afraid they must go and leave the Province: On which those noble-spirited Landlords, after conversing a little together in *Dutch*, sat down and wrote them a full Discharge for their Dues: Not forgetting that Part of their Daily Prayer (*Mat.* vi. 12.) *Forgive us our Debts, as we forgive our Debtors.*

NEW-YORK, April 13.

Just when Capt. Davis left London, which was the 21st of February, Mr. Pitt was sent for from Bath to Court, on very particular business; on his journey, at Marlborough, the ceiling of the room fell in upon him when at dinner, occasioned by a workman's falling through the same:—He will use his endeavours this parliament to break the India company's charter, if they do not pay all the expence attending the last war in India; the company seem to foresee the event, as they have more ships out now than ever. The parliament does not break up till the 14th of May, by which time Mr. Pitt will likewise endeavor to have the Manilla ransom paid, which is £.350,000.

By Capt. Davis, we hear the British troops that are to be sent to America, is to consist of 5000, [*another account says* 13,000] and that all those are to be quartered in the provinces of New-York, Connecticut and Boston; all which is to be kept up, besides the Militia. It's also said, that the affairs of America was under Inspection of the parliament, and might have been greatly to their advantage, before they sent their last remonstrance, which was called libellous: Some of the Lords were greatly incensed against them; Lord Shelbourne and Mr. Conway told the committee of merchants that waited on them, that they were sorry the Americans behaved so refractory, particularly the people of New-York; and that if they behaved as they should have done, the duties on sugar and molasses would have been eased, and their trade in general enlarged; but now the tables were turned against them; for they think the Americans want England to treat with them as an equal power, by their pretending in their late remonstrance to parliament to comply only with such laws and taxes as they pleased, and tho't most convenient for the good of themselves. Captain Davis was sorry to hear that the New-Yorkers Friends was also against them in general; that they had behaved ungrateful to the Committee, in not returning them Thanks for what they did, in getting the Stamp Act repealed, tho' it cost them £. 500 to compleat it; but that, on the contrary, they seem to insist upon their doing more for them: They have had the Thanks of Quebec, and the little Colony of Rhod-Island, but no more; and the last Remonstrance to them was voted to be burnt, un-open'd: These Threats to a Well-wisher of America, when in England, goes down very hard.

Capt. Davis further informs, that the Spaniards are fitting out a very large Fleet in all their Ports; and it is looked upon, as if they intended an Attack on Gibraltar or Mahon, to make up for their late Losses.---Admiral Broderick is going with a large Fleet to Gibraltar, and Orders are gone before him, to get proper Booms fix'd, and every Thing for Defence ready at those Places: Many large Ships are taken up in the River Thames, for Store-ships and Transports:---These Preparations has given some Grounds to the Enemies of America, to think these Preparations was against them.---Hence probably the Report of so many Men to be sent among us took its Rise.---Numbers of Carpenters, and other Tradesmen, are gone to Spain; the English Ambassador has Orders to demand them, seeing the Disadvantage of such Men leaving their native Country.----Numbers of Tradesmen have engaged to go and settle in East and West Florida, as the Poor in general in England are very much distressed by Taxes, and Provisions excessive dear.

About 3 o'clock last Wednesday Morning, in thick weather, came ashore on Merick-Beech, three miles south of Hampstead-Church on Long-Island, the ship Britannia, Capt. Richards, of and for this port, from London: At 5 the same morning, the main, mizen and fore-top-masts were cut away, in hopes to keep the ship from going to pieces, but the surff ran so high, no help could be had from the shore: Wednesday one of the men, by the help of a cork jacket, and a line in his hand, with difficulty reached the beach, but was obliged to let it go, to save his life: In the afternoon of the same day, a free negro named Richard Williams, was drowned in an attempt of the same kind. The weather continued stormy, the passengers and crew remained in the fore-shrouds that night, but in the morning made a raft, by which some of them got ashore, and the weather being moderated, the rest, all but two seamen that were drowned by the boat over-setting, were saved. About £.1000 value of the cargo has been saved, and 'tis supposed she is gone to pieces.

By Capt. Field, who arrived here last Tuesday, in a Schooner belonging to New-Haven, from Antigua, but last in 18 days from Turks-Islands, we have the pleasure to hear of the safe arrival there of Governor Seymour from England, with a number of attendants or settlers, and that he is ardently employed in laying out lots and roads in such parts of the grand key, as are most suitable for a settlement:---Also erecting proper fortifications to defend the place from any Enemy; and it is apprehended, a pretty Town will soon be erected:---As these Islands lay so contiguous to Hispaniola, and 'tis said a good harbour may be found or made among the keys, it is imagined it will quickly become a considerable place of trade to the English, and a powerful rival to Monti-Christo.---To which we may add, the great advantage of the natural salt-ponds there; the value whereof must be considerable, if we consider the danger so frequently attending the gathering salt at Saltortuga, at which place, 'tis said the salt ponds are this season rendered entirely useless.

Messieurs EDES & GILL,

The following Account of the flourishing State of the Churches under the Pastoral Care of the Rev. Mr. Winslow, in the Towns of Braintree, Stoughton and Dedham, is taken from the Abstract of the Proceedings of the SOCIETY *for the Propagation of the Gospel in Foreign Parts, published in London the last Year, by Order of the Society.*

"THE Rev. Mr. *Winslow*, the Society's Missionary at *Braintree* in the Province of Massachusetts, in his Letters dated Jan. 1, and July 6, 1765, writes, that the people of *Braintree* have purchased a decent and convenient house, and about 7 acres of valuable land, for the use of the Missionary, at the expence of 230 sterling: In the disposal of which sum they have acquitted themselves to their own reputation and Mr. Winslow's satisfaction.

"In *Braintree* there are 50 families belonging to the church, and 53 communicants; in *Stoughton* 20 families, and 18 communicants; and at *Dedham*, and in the neighbourhood, 10 or 12 families, and 11 communicants. At the two last Mr. Winslow officiates alternately one *Sunday* in each month, at which times the two congregations unite, and make a decent appearance. When the estate left by Mr. *Colburn* comes into the hands of the church at *Dedham*, there will be a good foundation for the settlement of a minister between the churches of *Stoughton* and *Dedham*.

"Within the Year Mr. Winslow baptized, in his mission, 22 infants, 1 white and 2 negro adults."

N. B. In a Sermon preached by the Lord Bishop of GLOUSTER before the Society, on Feb. 21, 1766, which is published in the same Pamphlet with the Abstract above-mentioned, are the following words, spoken of the Colonists——

"The very people whose fathers were driven for conscience sake into *the waste and howling wilderness*, are now as ready to laugh at that Bible, esteemed by their fathers the most precious relict of their ruined fortunes, as at their Ruffs and Collar-Bands." *a vile Slander!*

BOSTON, April 20.

Last Tuesday Morning as the Rev. Mr. WILLIAM HOOPER, Minister of Trinity Church in this Town, was walking from his Garden to his House, without any Complaint of Illness, he instantly dropp'd down dead in the Yard before he got to his Door.——His Funeral was attended last Friday.

We hear that Capt. Binney in a Ship belonging to this Port was lately cast away in the West-Indies. The Vessel and Cargo lost—People saved.

The 8th Instant departed this Life, in the 18th year of her age, Miss JANE PATESHALL, only Child of Mr. Richard Pateshall of this Town. Her Remains were interred last Tuesday Evening.

We hear from Stoughton, that last Wednesday 7-night died there Mrs. Mary Horton, aged One hundred and five Years: She was a Native of Jamaica in the West-Indies, and in the great Earthquake at that Island above 60 years since, she was taken up floating on the Water, and brought hither by a Vessel belonging to this Place: Her Husband was also taken up at the same Time, and brought hither by another Vessel, by which Means they met together to their great Surprize, both imagining each other to have perished in that terrible Catastrophe.
